## PROFESSIONAL SUMMARY

---

With 3 years of experience in React.js, Next.js, TypeScript, GSAP animations, Electron.js and with a solid understanding of responsive design, I'm passionate about building efficient and visually stunning web solutions.

## TECH STACK

---

- **Frontend:** React.js, Next.js, TypeScript, Redux Toolkit, React Query
- **UI:** Tailwind CSS, GSAP (Advanced)
- **Tools:** Git, Electron.js, Google Analytics, Google Tag Manager
- **Project Management:** Slack, ClickUp

## PROFESSIONAL EXPERIENCE

---

### ENIGMATIX | Front-End UI Designer & Developer

*Bahawalpur, Pakistan | August 2022 – Present*

#### Front-End Development

- Engineered responsive web interfaces using React.js, Next.js, and TypeScript for WOOF Club, Zoaverse, and FID World.
- Implemented dynamic features and state management with Redux Toolkit and React Query for accurate computations.
- Developed cross-platform desktop interface for Zoaverse Launcher using Electron.js with consistent user experience.
- Utilized Git for version control and collaborative development across team projects.

#### User Interface Design

- Created intuitive UIs with Tailwind CSS for responsive designs across multiple platforms
- Enhanced interactivity with GSAP animations for smooth transitions and dynamic effects
- Designed and implemented bilingual interfaces (Arabic/English) with seamless language toggle functionality.

#### Additional Contributions

- Integrated Google Analytics and Google Tag Manager for performance optimization
- Collaborated with backend teams to resolve issues and ensure cohesive project delivery.

## KEY PROJECTS

---

### WOOV Club Manager Platform | Sports Facility Management Solution

- Developed manager application and showcase site using Next.js and React.js
- Implemented responsive design with Tailwind CSS and interactive GSAP elements
- Built comprehensive UI for court, game, and advertisement management
- Integrated APIs using React Query for real-time functionality and performance optimization

### Zoaverse Virtual Events Platform | Metaverse-inspired Digital Events Solution

- Created responsive bilingual UI using Next.js and Tailwind CSS
- Implemented GSAP animations for enhanced user interactivity
- Developed avatar customization and social networking capabilities
- Built language toggle supporting both Arabic and English interfaces

### Zoaverse Launcher | Desktop Application

- Designed intuitive desktop UI using Electron.js integrated with the web ecosystem
- Maintained consistent design language across platforms for a cohesive user experience

### Cost Management System | Business Financial Analysis Tool

- Designed an intuitive cost analysis tool with automated calculations for profitability metrics
- Created a real-time dashboard with financial visualizations for business decisions
- Implemented using React.js with state management via Redux Toolkit

### FID World | Unified Web Platform

- Developed responsive UI to showcase Zoaverse and WOOV Club
- Created scalable interface using Next.js and Tailwind CSS optimized for all devices

### Feative Studios Website | Gaming and Metaverse Showcase

- Enhanced company website using Next.js with Tailwind CSS and GSAP animations
- Created responsive UI showcasing games and AR/VR projects

## AWARDS & CERTIFICATIONS

---

- Interface Excellence Award, Enigmatix, February 2025
- Excellence Achievement Award, Enigmatix, December 2023
- React-Basic Certificate, HackerRank
- JavaScript-Basic Certificate, HackerRank
- Responsive Web Design, freeCodeCamp

## EDUCATION

---

The Islamia University of Bahawalpur

**Bachelor of Computer Science** | *Bahawalpur, Pakistan*
